* This Booklet does not include *Medicare Select* policies or plans with a Rating Class of *Innovative*.

What you should know about Medigaps (Medicare Supplements)

General Information

In Arizona, Medigap options are limited for beneficiaries under age 65. More options might be available in other states.

A Medigap policy **cannot** be used with a Medicare Advantage plan; it is only for beneficiaries with Original Medicare.

After 1/1/2020, C, F, and F(HD) plans are only available in special circumstances: (1) People who turned 65 prior to 1/1/2020 can get these plans. (2) People on disability or with ESRD, on Medicare prior to 1/1/2020, can get these plans when they turn 65.

Other pricing options not included in this Booklet might be available to you through a former employer, a retiree group or an insurance agent.

The prices and information in this Booklet are gathered from a reliable source, but you should verify everything with the insurance company.

Note that a company might not use the same Rating Method for all the plans they offer.

Guaranteed Issue

When you are 65 or older, starting on the first of the month that your Part B coverage begins you have a guaranteed issue right for six months.

If you are not eligible for "guaranteed issue," you must submit to medical underwriting.

Medical underwriting means the insurance company asks you questions about your medications and your health.

Underwriting results could mean higher premiums, delayed coverage or the inability to buy their plan.

There are a few other specific circumstances when you might qualify for guaranteed issue, but otherwise you are subject to medical underwriting.

Contact SHIP for details.

The bottom line: if you want to change plans in the future, there is no guarantee that you will be able to do so.

Benefits to be included in each Medigap (Supplemental) plan (A-N) are determined by Medicare.

Insurance companies can only sell "standardized" Medigap policies identified by letters A through N.

The benefits to be included in plans A-N cannot be modified but additional benefits can be added.

Differences in the premium charged by each company are the result of their claims experience and other company criteria.

Premiums for each plan will most likely increase in the future as medical costs increase.

Questions you might want to ask the Company to help you decide on a plan.

1. State that you're in your Guaranteed Issue period, **ask them the monthly premium** for your age, sex, Zip Code and tobacco status (do you use tobacco?).
2. What have been the plan percentage increases over the last 5 years?
3. What is your parent company?
4. Are there any types of discounts, for example couples signing up for the same plan? How do they work?
5. Does this plan offer any extra benefits beyond the required standard features?
6. Why do you think this is the best plan for me?

Some of these topics are addressed in more detail in the Medicare publication "Choosing a Medigap Policy" which is available at the Medicare.gov website. See Free Medicare Publications: <https://www.medicare.gov/publications>
